## Getting Started

Thank you for choosing the OrbicTab 10R.

This guide helps you to get started with your device for the first time.

The Tab10R has built-in 5G capabilities, that can be utilized to connect to the internet anywhere and anytime.

## Device Overview

**NOTE :** The screen images and icons seen here are for reference only since the software is constantly evolving.

The Tab 10R is bundled with a stylus; a digital pen tool that is used for navigating, drawing pictures, taking notes, and being more precise when selecting items.

## Installing a SIM Card

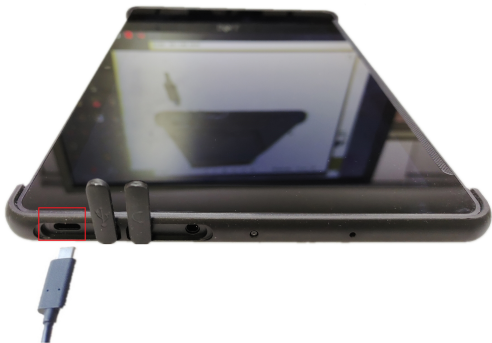

Insert the SIM tool in the SIM pinhole to release the tray (as shown in the figure below). Place the SIM card in the slot with the gold contacts facing down and close the tray. Your device is now ready to be used.

The SIM tray also has a slot for microSD card that can be inserted following the steps mentioned above.

**NOTE :** The microSD card is sold separately.

## Charging the Battery

Before using your Tablet, you must fully charge the battery ( 100% ).

1. Insert the smaller end ( USB Type C ) into the Tablet and the larger end ( USB Type A ) into the charger adapter.
2. Plug the charger into an electrical outlet.

**Warning!** Use only approved chargers with your device. Incompatible chargers that are tampered with may damage the device and void the warranty.
